Total Bill:

100.00

Tip Percentage: 18%

Number of People:

2

Calculate

**Total Bill: \$100.00**

**Tip Amount: \$18.00**

**Total w/tip: \$118.00**

**Split: \$59.00**

menu

1 - Tip is calculated with this formula:

$(\text{total bill} / 100) * \text{tip percentage}$

Example:  $(100 / 100) * 18 = 18$  dollars

2 - Total is calculated with this formula:

$\text{total bill} + \text{tip}$

Example:  $100 + 18 = 118$  which is the total.

3 - Split is calculated with this formula:

$(\text{total bill} + \text{tip}) / \text{number of people}$

Example:  $(100 + 18) / 2 = 59$  dollars each person
